# INDIANA OFFICE OF ENERGY & DEFENSE DEVELOPMENT

## Alternative Power & Energy Grant Program (APE)

*The Office of Energy and Defense Development (OED) was established to enhance Indiana's potential for links in energy and defense for economic development and national security.*

## Alternative Power & Energy Grant Program

-  The **APE Grant Program** will provide cost share grants to Indiana's public, non-profit, commercial, industrial and agricultural sectors for the purchase and installation of alternative energy systems.
-  Alternative energy systems make use of non-fossil fuel resources to produce clean, home-grown electricity and thermal energy.
-  In a time of rising energy costs and increased energy supply volatility, it is vital to our economic future to diversify the portfolio of resources we use to produce energy.

**Alternative Power & Energy Grant Program**

-  **Indiana has a variety of underutilized energy resources that can be used to achieve this goal.**
-  **Often times these resources can be converted from costly liabilities to energy assets.**

***The use of these local resources will help stabilize energy prices, while at the same time allowing Hoosiers to spend their energy dollars locally instead of exporting them out-of-state.***

## APE Accomplishments (since January 2005)

**20 Awardees**

**1.1(+) million in grant awards for alternative energy systems**

**Grants annually offset the use of 1.5 million mmbtu of fossil fuel-generated energy**

*Equivalent of 250,000 barrels of crude oil*

**Nearly \$40 million leveraged in private investment**

## APE Accomplishments (since January 2005)

### Examples of Projects

- Biomass boilers to make use of wood waste at Robinson Lumber in New Albany
- Wind, solar and geothermal installation at the Merry Lea Environmental Learning Center in Wolf Lake
- Landfill methane gas projects that generate over 8MW of renewable electricity in Clark, Porter and Lake counties
